Changes made to Initial ERD

1. Added a Date dimension to enable date specific analysis capabilities such as year over year or week over week trends of top business and their products.

2. Added a Time dimension to enable time specific analysis capabilities such as what restaurants are busiest after 7 pm, time zone specific analysis for international businesses.

3. Removed the Hours and Day entities that were not supporting the date and time analytical capabilities.

4. Improved readability of the diagram as opposed to the previous version.

5. Atomic columns for the Users table for User's name.
